Hey, how are you doing?

You've just received an invitation to another stage of our Talent Acquisition process.

We have prepared a short challenge to know a little bit more about your background and your research skills.

#BESTPRACTICE:
Follow the instructions below:
1. Execute full stack engineer setup exercise: README-DevEnv.MD
2. Execute README-DevOps.md
1. Deploy nameko-devex app on Docker
2. Deploy nameko-devex app on K8S (KinD)
3. Deploy nameko-devex app on Epinio

#CHALLENGE:
- Your code and instructions must be in a Git repository.
- Task 2.c, you can deploy another App on Epinio. (WordPress app will not be accepted)
- Use your knowledge to solve possible problems.
- Get ready for an English presentation.
